“ *So sorry to learn of Alda’s passing. She traveled all over the world with mom and dad (Gary and Marilyn) and served as their “driver” so they could watch the surroundings as she drove. She took wonderful pictures that were shared along with the stories behind them as we would enjoy a meal around mom and dads kitchen table. She always called me to catch up on mom and dad, especially if one of them were ill, always offering to help any way she could. Below is the last picture I have of her— it was taken about five or six years ago at mom and dads farm. I’ll bet she and dad are swapping stories and talking travel right about now. She will be truly missed. Hugs to you and your family.*

“ *Alda Jones was a wonderful chemistry student and someone that provided leader ship for our students and producing a science symposium. This event was student lead, particularly by Alda and as a result, and gained national recognition. I'll always remember her love of horses and what a treasure she was to have in class...*

I worked with Alda at the VA hospital lab and she was a hoot!! I loved all of her stories and the many advantageous vacations she went on. She talked about her family all the time especially those grand nieces and nephews. So sorry for your loss.

“ *Belva, I'm so sorry to hear about Alda.. We were friends while in school, & it seems the next time I turned around, your family moved away. I still remember going to your home to see Alda. We were washing & drying dishes & putting them away. Your Mom came in & was 'unhappy' because the plates weren't dried very good. LOL. Alda got me on a horse for the 1st time & walked me around the pasture, & one day we climbed up on the roof of your house...Alda talking about us jumping off to the ground. Pretty sure I didn't jump, that was a long way down!.. Good memories of her. Hugs & prayers !!*
