“ *I dearly loved Yvonne and her laugh. She was one of my favorites to be able to work with. We went on some fun trips together with the girls from the Beauty Shop. She was the last one to get ready and we always waited on her. Little did we know she would always do her make up first and then get in the tub . She was always beautiful. Love and Prayers to the family.*

“ *Yvonne (Von) was a very dear "cousin". I know that she will be missed. I will share a short story. Aunt Florence would come to see our family when I was small (maybe 3 or 4). Von had a bad habit of biting and she bit me because I wouldn't let her sit in my chair. Aunt Florence and my Mom decided how to break that habit by making me bite Von back. I did and it worked.*
