“Nathan Levi where do I begin you had such a big heart. You were always there for everyone around you. you were the type of person who didn't know a stranger and would give the shirt off your back if someone needed it. You had so many hopes for your future and I believe that one day you would of made them happen. You always made me laugh no matter how bad thing were going. I just can't believe you are gone i remember one night we were discussing music and the song by Carrie Underwood see you again came on and you said this song hits home it reminded you of your grandfather well now this song hits home with me because it reminds me of you. I still can't believe I have to relate a song to you. I have to say it was an honor to have had you in my life and call you my friend if it was just for a moment. I am blessed that you opened my eyes and heart to the lord and now one day I will see you again and until that day comes I will miss you with all my heart.
