“ Our sincere condolences go out to the entire Hester family and friends for their loss of a kind & beautiful women. We have lived behind Mrs. Hester for many years now and have enjoyed many conversations with her about her beautiful trees and flowers. Over the years she has given us red stem maples, pines and acorns. The acorns were given to encourage us to grow oaks the way they did many years ago. We owe our beautiful scenery of amazingly mature cedars, beautiful pines and a forest full of cardinals and blue- jays to the work of Mr and Mrs. Hester. I remember how proud she was that she and her husband created this beautiful little forest that so many can enjoy!!Thank you! As we see the daily beauty they created we will thank God for his promise of Seeing ashes to beauty!! Every time we see a cardinal or blue- jay in the beautiful little forest we will thank God for his goodness and remembrance of our friend Suzanne. Chris & Stephanie Anderson
