My prayers for comfort go out to Tommy's family and friends. Tommy and I were close friends in High School. I spent many hours working with him on his Chevelle in his dads shop. I'll never forget the car we cut down to just a frame with a V8 Chevy engine and one seat to drive it, pouring oil on the street by the house and doing donuts with it. Though we lost contact over the years I often thought about those days. I had just moved to Muskogee our Sophomore year and didn't know anyone and then I met Tommy and he was the nicest person on earth. I had a hopped up 68 Cougar but could never out run that crazy Chevelle. RIP Tommy...I know you're on that drag strip in heaven or camping on heavens lake waiting on your wonderful family to join you one day.
